

Microsoft Dynamics 365 for Manufacturing enables greater efficiency, planning, customer satisfaction and profitability for modern manufacturers.

DYNAMICS 365 PARTNER PROFILE: TURNKEY TECHNOLOGIES, INC.

Turnkey Technologies, Inc. is a Gold Microsoft Partner delivering Microsoft Dynamics solutions to clients in a variety of industries. Since 1994, our team of technical and functional experts have served our customers through implementations, training, and support services. We are not just a vendor; we are a digital transformation partner.

WHAT WE OFFER

Production Control:

Manage all the variables that go into production scheduling, such as market demand, shop floor management, and equipment and labor capacity. Dynamics 365 lets you create different planning scenarios using visual tools to adjust production schedules under changing circumstances.

Supply Chain Management:

Manage inventory accurately with demand forecasting and insights into where your inventory resides. Dynamics 365 is designed to help you strategize distribution plans, manage warehouses, supervise quality control, and handle procurement and sourcing.

Sales, Service, and Marketing:

Seamlessly connect ERP and CRM to gain a comprehensive solution that allows sales and marketing to identify, acquire and retain clients. Functionality includes sales pipeline, cases, project management and more.

Business Intelligence:

Generate reports that enable optimal decision making. With thorough insights into your financial condition, production performance, supplier and distributor networks and other factors, you'll be able to propel your organization forward and outclass the competition.

WHAT OUR CUSTOMERS ARE SAYING

"In addition to giving us what we need right now, Turnkey stands out because they anticipate what we will need in the future. By fully understanding our requirements, they are able to devise a long-term strategy for us to maximize the benefits of this technology." - Vice President of Operations, Mid-Market Metal Supply Company

Dynamics 365

To accelerate your digital transformation, you need a new type of business application. One that breaks down the silos between CRM and ERP, that's powered by data and intelligence, and helps capture new business opportunities. That's Microsoft Dynamics 365.

KEY SOLUTIONS

SALES

Empower sellers with insights to personalize relationships, predict customer needs, and increase sales.

SERVICE

Exceed customer expectations across self and assisted support with empowered agents that deliver personalized experiences.

FINANCE AND OPERATIONS

Modernize your business operations across finance, manufacturing, and supply chain to drive new growth.

TALENT

Attract the right people and seamlessly onboard, engage, and grow your talent.

MARKETING

Unify sales and marketing content, data, and processes with Adobe Marketing Cloud.

START WITH WHAT YOU NEED

Choose from modular applications that are designed for specific processes, roles, and industries – so you can solve a business problem and easily expand to run your entire business in the cloud. Meet the unique needs of your organization with a modern business platform that makes it easy to tailor and extend Dynamics 365 applications – with little to no code development. Quickly build apps, automate workflows, and bring additional data insight into your business with the Microsoft business application platform.

OPTIMIZE PRODUCTIVITY

Enable greater productivity by seamlessly connecting your business process data with Office 365 and LinkedIn data – surfacing it within familiar tools like Outlook, Excel, and Power BI. Streamline business processes – from lead capture to mobile approvals.

INFUSE INTELLIGENCE

Deliver actionable insights powered by artificial intelligence and the Microsoft cloud that proactively guide employees to optimal outcomes and drive business results. Pull rich analytics from your data with Power BI, build sophisticated business apps with PowerApps, create workflow automations with Microsoft Flow, and bring together all the data you need with Common Data Service.

ADAPT TO CHANGE

Easily tailor, extend, connect, and build applications with a modern platform and little to no code development so you can meet your specific business needs. Create apps that work across Windows, iOS, Android, and web using PowerApps.
